**Hinweis**

Verschließen Sie keinesfalls die Konvektionsöffnung der Wandverblendung ihres Ofens um ein Überhitzen der eingebauten Komponenten zu vermeiden!

**Attention**

Ne fermez en aucun cas l'ouverture de convection du revêtement mural de votre poêle afin d'éviter une surchauffe des composants installés !

**Attenzione**

Non chiudere in nessun caso l'apertura di convezione del rivestimento della vostra stufa per evitare il surriscaldamento dei componenti installati!

**Note**

Do not under any circumstances close the convection opening of the wall facing of your oven to prevent the installed components from overheating!

**Aanwijzing**

Sluit in geen geval de convectie-opening van de wand van uw kachel af om oververhitting van de geïnstalleerde onderdelen te voorkomen!

**Nota**

No cierre en ningún caso la abertura de convección del revestimiento mural de su estufa para evitar el sobrecalentamiento de los componentes instalados.

**Observera**

Stäng inte under några omständigheter konvektionsöppningen i väggbeklädnaden till din spis för att undvika överhettning av de installerade komponenterna!

**Henvisning**

Luk under ingen omstændigheder konvektionsåbningen i vægbeklædningen på din brændeovn for at undgå overophedning af de installerede komponenter!
